

REPRESENTATIVE DRIEHAUS WELCOMES NEARLY \$5 MILLION IN HHS FUNDING FOR UNIVERSITY OF CINCINNATI

WASHINGTON, DC—Representative Steve Driehaus today welcomed an announcement by the U.S. Department of Health and Human Services (HHS) of two grants totaling \$4,928,686 for the University of Cincinnati. The funding will support medical research at the university.

“This is more good news for the University of Cincinnati and our community. We’re fortunate to have a world-class research center at UC, and this investment will provide support to continue that groundbreaking work,” said Rep. Driehaus.

According to HHS, these grants will support medical research projects at the University of Cincinnati. A grant of \$4,584,513 will support a project entitled “Ethnic/Racial Variation in Intracerebral Hemorrhage (ERICH),” and will be directed by Dr. Daniel Woo of the College of Medicine Neurology Department. A second grant of \$344,173 will support a project entitled “Establishing Design Criteria and Large Animal Model for Evaluation of ACL Repair,” and will be directed by Dr. Jason T. Shearn.
